## Assessment instruments – work related competence

### Evaluation of the work placement

Student's name: .....

Company: .....

Name and position of the instructor: .....

Date of internship: .....

#### Competence area:

Competence area 2- competence development step 1

#### Learning unit:

He/She is able to operate components of building systems according to instructions and to make settings and to check their proper function.

Descriptors	Good	Satisfac- tory	To be improved	Comments
<b>Installations and Systems of information technology</b>				
He/She is able to operate components of information technology systems according to instructions and to make settings and to check their proper function.				
Clients (eg. Workstations, Office PCs, Thin Clients, ...)				
Server (e.g. video recording, server for building automation systems, ...)				
I/O-devices (printer, scanner, screens, Beamer, Smart boards, ...)				
Components of structured building wiring with TP-cables (wirings, patch panels, RJ45 connectors, ...)				
Components of structured building wiring with optical fibre (optical fibre wiring, optical fibre patch				

panels, ...)				
active network components (switches, router, ...)				
Configuration and administration of Software to control building system processes				
WiFi connections				
Comments if it is necessary				
<b>Installations and Systems of communication technology</b>				
He/She is able to operate components of communication technology systems according to instructions and to make settings and to check their proper function.				
analogue telephone systems				
ISDN telephone systems				
pVoIP telephone systems				
door intercom systems				
electro-acoustic public-address- systems				
electro-acoustic emergency systems				
IP camera systems				
Comments if it is necessary
